

Mp3 Goodbye Blue Monday - Help Is On The Way

[DOWNLOAD HERE](#)

Like a jet-plane, Goodbye Blue Monday has the glorious roar, the attention getting muscle, the sky-bound ambition. But like a snake, it knows quiet, how to be smart, and move and writhe with an efficient twitch. 7 MP3 Songs ROCK: Instrumental Rock, ROCK: Progressive Rock Details: Goodbye Blue Monday is, in its purest form, a truly explosive indie rock band. Rollercoaster rides wind us through dynamic avenues of distortion, Jason hooper's pounding drums, and the needle like guitar work of Demetrius Antuna. Redemption follows in waves of tranquil guitar harmonies layered over the cinematic backgrounds of bassist Dario Izarraras. The brutal honesty and enigmatic obscurity of vocalist Matt Mournian's lyrics recall lost years, drug abuse, emptiness, and the purity of new beginnings. Goodbye Blue Monday is now poised to make an incredible and unique mark on the international indie rock circuit. After emerging as one of San Diego's most admired and respected rock bands along side acts such as Pinback, the Album Leaf, the Black Heart Procession, and even the legendary Drive Like Jehu, Goodbye Blue Monday is entering a new era... help is on the way.
