70s rock with a country touch 12 MP3 Songs ROCK: 70's Rock, POP: British Pop Details: The music of Orange is odd and remarkable, but still very recognisable. Lyrically they walk a fine line between commercial hooks and political statements. The songs are about such varied subjects as political issues of today, existential angst and good old-fashioned love; everything delivered with complete self-assurance and ease. "Take a look on the inside" consists of 12 songs and every one of them could be elected for "single"-treatment. Carefully produced and performed with edge and presence, Orange's debut album will dash anyone with musical appetite and curiosity. It's a well-crafted album whose genius is not revealed until you hear it the second time? It could be said that Orange have accomplished what John Lennon tried so hard to explain to a very frustrated George Martin when he said; "I want it to sound like an orange!"
