Violin-Soaked Punk Folk Rock 11 MP3 Songs ROCK: Modern Rock, ROCK: Acoustic Details: This album was mostly done over the summer of 2004, and includes songs that had been written and recorded as much as 3 years earlier. I play all the instruments on each song (except the drums - those are sampled) and produced them myself. Sounds like: Flying through the rain at night, sitting under a burning tree, crawling into a hole in the wall, and waking up underwater. Recommended for fans of Radiohead, Neutral Milk Hotel, Flaming Lips, and the Beatles. A note for those who have ordered the album: Listen Harmony can only be heard by rewinding from track 1. Think of it as an optional opening track.
