Birthday party traditions began in Europe many years ago. Since it was believed that people having birthdays attracted evil spirits, family and friends would extend well wishes and good fortune to the birthday person to ward off the spirits. Family history, culture, language and economic status all come into play in determining the way a person observes the "celebration" of their birth. The lyrics to the song "Happy Birthday to You" were written by two American sisters in 1893 and has been a long-standing tradition for years. Whatever your age, tradition, religion or culture, birthdays should be shared with fun, laughter and, of course, this CD!
