The 23 year old MC seems extremely mature for his age and seems to handle the responsibilities of almost ten people. "The shit is crazy. I do more by 12 in the afternoon than most do in a week. I hit the lab about 8 a.m. check my e-mails and return any important phone calls, work on a few beats, do a little writing, mix a few tracks, and repeat the process till about 12:30 at night". "I'm not trying to be anything other than the best that I can be feel me?". "I'm not waiting for anybody to provide me with anything or give me a f-ing handout." Even so with all things added to his plate Skryptrs has not only begun to sell ring tones, but has plans to launch a joint partnership clothing company with his designer NICE. "Given the average life span of a rapper I'm trying to do it all. If I can't rap anymore for some reason I need something to fall back on feel me?". Editors Note: " With all things said I believe that 23 and having the skills to do so much if this kid doesn't blow its our lost.
