He is from Sedona AZ. Over the past 25 years hes been a partner of two international trading firms, a yoga teacher, national spiritual seminar leader, poet, musician and is the author of the book Listening to the Sun. While attending undergraduate school Tobias Lars had an awakening experience where the energy centers of the body opened up and spontaneously reactivated ancient yogic energy practices. This happened without any work. The Yogic 'Asanas' - the postures came back to the conscious awareness and he felt other lifetimes of practicing yoga. As he did each posture they felt like a key unlocking energy grids in the body that had been previously locked and these energies were then released and flooded through the body. These powerful effects were undeniable to his young western scientific mind. That Started a 25 year journey of spiritual study. Tobias spent time in India with a master teacher, studied shamanic practices with Native American free beings, heart centered Tantra, ego confrontation, the path of divine romantic love and with the help of a mentor opened back up to the energies of the nature kingdom of Pan and the Devic Kingdom. Soul counseling The Sanctuary for Souls Courses are his wish and contribution for assisting others who wish this same awakening of their souls. People who are interested in Osho should consider this download.
