SS (CA) former Managing Director of the National Academy of Songwriters, and co-author of the smash
Off-Broadway hit The Last Session, re a BLACK SEA OF LOVE song, (but which one?): Its Great! Its the
most unusual thing Ive ever heard! And you can tell them I said so!" [bear in mind he wrote a musical] JB
(IL)author, radio journalist-NPR Willa is the Kurt Weill of Macomb (thats Macomb, Illinois.Listen to Jeff.

Hes from Southern Illinois. Also author of new book lauded by Studs Terkel: The United States of Appalachia.) GP (CA) lead singer of the sizzlin Inland Empire band Slow Men Working Wow! with the guy who said its the most unusual thing hed ever heard! I think the writing is superb and perfectly suited to the dissonance of the music! found myself thrilled by the unexpected chords. VERY ORIGINAL..and it grows on you, at least on me as I broke down some of my own prejudices while I listened DR (MA) Tech, Grad of Boston Conservatory of Music, MA (but are you rich?): "You have me hooked. Your originality is clearly beyond any widely-known style in the realm of popular music too brutally honest and complex for the New Age circuit too complex and sensitive for the Top-40 tune set too modern for those fixed on traditional cabaret too blasphemous (and thus realistic) for the Christian devotional set. The style reminds me most of the Romany musical style, with its precise rhythm, complex harmony, and wildness, yet eminently danceable! getting several for friends and I cant wait for your next recording. BT (CA): I tried to listen but it makes me feel weird and sick. A year later she writes back, Im trying it again. Maris, accordian/vocal virtuoso (Riga, LATVIA): "Willa, I can be proud, because I'm the only one who has your CD in Latvia! Thinking of your music in context with the music market in Latvia, your music is very original in style, sound and content, and this is why I liked it so much and my mother, father, friends and colleagues as well! Contact me if you ever have ideas for creative collaboration using my skills in accordion or voice!" Dr.C (CA) medical doctor, health care reform pioneer and author of Money Driven Medicine--Tests and Treatments That Don't Work; Director, Long Beach Organic. Your song STOP is an anthem for the ecology movement. SS (KY) You are a genius [shout now!] and a most powerful form of Kwan Yin gypsy! Your stories too your voices I just cant get over it! For brief moments I thought of Kurt Weill and Jefferson Airplane and Bob Dylan but you are way beyond them. You include the WHOLE story. I would not be the least surprised if your work received the highest acclaim but so often (of course) its not great stuff our world recognizes. But that doesnt matter. Your gift is unique and priceless and forever. Thank you!" [still we paid for more] MJ, 82 (MA) former teacher and labor union rep, currently resident of nursing home, MA. After performance of Daft Cabarets Let em Whirl!" MJ, 82, said, Are you finished? Could you do that again? Later she wrote: My friends at the nursing home all want it again.
