The use of vacuum or vacuum pumps can be found in almost every branch of manufacturing. This is also true for the automobile industry, where the employment of vacuum as a positive solution for the problems associated with the correct and precise filling of the various fluid systems, without having any adverse effect on the environment or operating personnel. In addition to this, the use of vacuum as a technical process in the fluid filling procedure has had a marked improvement in the vehicles safety. Es gibt kaum einen Industriezweig, in dem heute nicht Vakuumpumpen arbeiten oder unter Vakuum hergestellte Produkte verwendet werden. Auch im Automobilbau ist dies nicht anders. Der Einsatz von Vakuumpumpen löst dort Probleme wie einwandfreies Einfüllen der vielen Flüssigkeiten ohne Beeinträchtigung von Mensch und Umwelt. Zusätzlich sorgen verfahrenstechnische Prozesse, die unter Vakuum ablaufen, für Sicherheit.
