Save Hundreds of Dollars on Minisite Templates and Make Easy Affiliate Commissions at the Same Time! Nuttie Guru Has Finally Made it Possible with His NEW Conduit Review Minisite Templates! Don't waste money on worthless templates from Template Monster! I guarantee you will find a Much BETTER and CHEAPER Deal Here! Conduit Affiliate Marketing Method Revealed! Why Are Conduit Product Review Sites Better Than Ordinary Review Sites! Note: Even if you have no interest in Conduit method, you can use my templates to build ANY type of product review site you want! You are only limited by your imagination! Conduit review sites are basically product review sites with a twist: you don't try to sell the product like a conventional affiliate marketer; instead, you present a fact-sheet of the product you are selling: its features, version history, domain/company name, name of the software developer, etc. You don't give any biased review as is the case with the conventional product review sites; instead, you call a spade a spade and let the buyers make the decision for themselves. For writing reviews like these, you don't need to stuff keywords in your reviews but make sure to give as much details as possible based on ACTUAL user feedback (which you can get from consumer boards and forums). So that is the whole thing in brief. I have done this once and will do it again. There was one product which was a top Clickbank seller but when I searched consumer boards I came across numerous consumer complains; these consumers were all dissatisfied with both the software and the customer support of the company, and some of them even got a refund from CB. I was probably the only one to write a negative review of the product; every other affiliate had a positive, 'clean' review! One day, a customer contacted me and asked how to get a refund from that company, lol (no joke). Like I said, there should be only FACTS and nothing else in your review; no bias, no opinion, nothing. Building a list is not mandatory for all niches but I have

included an optin form in my template for the list building fanatics (hmm, I am one of them as well). One another thing: the keywords you target in your review should be BUYER keywords (for example, "traffic secrets 2.0 review", "registry mechanic review", etc). After you build the site, you will need to get a few backlinks for your site (whether you buy them or gather them through conventional SEO methods such as press releases, article marketing, forum marketing, social bookmarking, etc., is up to you)! So why are Conduit review minisites so popular? Creating Conduit review minisites is: 1. Simple and Easy 2. Less Time Consuming, Since it Can be LEVERAGED! 3. BETTER ROI. Since you target impulse buyers, you can make MORE money even with LESS traffic 4. Needs less expertise. If You Can Write Product Reviews, You Can Make Money With This Method. You Dont Need To Write Informative Articles; You Need To Write Informative Product Reviews! 5. Your Website looks MORE Credible to the Visitor. Instead of a Conventional Affiliate Marketer, you pose as a Genuine, UNBIASED Reporter! 6. Works with ANY Niche, Regardless of Competition! In fact, this is the EXACT business model I follow these days and let me tell you: all other affiliate marketing tactics prove pale in comparison to this. I have one review site in a highly competitive niche and it is one of my top Clickbank earners. However, getting a template to run a conduit-type of site is near impossible, unless you are willing to pay more than \$100 for custom designing like I did. Even then there is no guarantee that you will get EXACTLY what you paid for! This is where my minisite template comes in! OK, without any more rambling, let me tell you that I searched from pillar to post to get a conduit minisite template but couldnt find anything to my liking. Ultimately I paid a top warrior designer to do the template for me. Then I figured out that I could help many other affiliates who might be interested in my review minisite template but dont have enough money to get a custom one done! So here is the deal: You Get 2 Conduit Minisite templates. Each template comes in-built with 7 pages; you can add more if you want. Add unlimited number of product-review pages, build your list, add featured products, etc.! I have made sure to include every possible method of monetization as per the Conduit method. Plus you also get 1 Bonus Template. This is NOT a conduit template by the way, but you can use it for any type of site! "But How Are Your Templates Any Different from the Hundreds of Minisite Templates That Are Gathering Dust on My Hard Drive?" You have no doubt purchased dozens of minisite templates before. However, here is where my templates differ from the rest: You DO NOT need Photoshop to edit these templates. I hate the idea of anyone having to invest \$600+ in Photoshop just to edit some templates. Come on, we are not trying to be graphics pros here! That is why I have made it as

easy as possible for you to edit the templates without investing an arm and a leg in any image editing software. These templates are completely CSS-based, so you can use just about any HTML or text editor to edit these templates (I however recommend you use a CSS editor like Dreamweaver, TopStyle or Style Master to save time). You can change colors, fonts, anything you like, and use the same template on as many sites you wish! You don't need to learn CSS to use these templates; however a little bit of HTML knowledge would come in handy.
