Classic Electric/Acoustic Guitar Psychedelic Soundscapes 14 MP3 Songs ROCK: Psychedelic, ELECTRONIC: Soundscapes Details: UNIFIED FIELDS- Inspired by sixties/seventies rock n roll surrealistic painters. Classic Electric/ Acoustic guitar psychedelia - The concept for this album was to continue the exploration begun by great rock guitarists like Jimmy Page David Gilmour. Guitarist Antony De Gennaro (Ant Man) experiments with Electric/ Acoustic guitars combined with keyboards, exotic instruments electronics. He bows, strums, fingerpicks orchestrates the guitars. Along with engineer Don Gunn, he experiments with backward forward analog digital tape delays. The songs explore imaginative sound combinations. The result is an amazing journey into a world of blissful, colorful, accessible guitar nirvana. REVIEW-- "An interesting new instrumental psychedelic album from the USA mixing acoustic electric guitars with sitar like drones, chimes, percussion melodic rock to create a trippy spaced out relaxing soundscape. The result is somewhere between the music Pink Floyd made for Zabrinski Point, Jefferson Airplane's 'Embryonic Journey' The Black Sun Ensembles Peyote Inspired Exotica. Pretty damn fine." -Freak Emporium, Delerium Records, UK
