Details: This CD is a colaboration between my self, John Brewington- songwriter,Chris Sommerlatte the songster and Mark Hill who produced, arranged and furnished the intrumentals. Chris grew up in Gonzales and Austin Texas where he has been a figure on the music scene since he was 18. He is comfortable with country,rock, blues ,gospel, folk or pop.His music had a large,diverse influence such as Pete Seeger, Tom Waits, Neil Young,Willie Nelson. Johnny Cash, John Lennon,Paul Simon,Bob Dylan,Elvis,Billy Joel,Kris Kristopherson And Tommy Shannon. He is a deeply spiritual and when he sings the gospel songs on this album and you can just feel his emotions close to the surface. On all the songs, you can tell he is enjoying singing immensely and he seems intense and relaxed at the same time.He hasnt started touring again yet, but he plays around Austin in several clubs. Music is his ambrosia, his endorphins and his spiritual and physical high . Mark Hill , arranged and produced this CD , started it in Austin and finished it in L.A. after Mark relocated. Hopefully , you will enjoy this CD as much as we did making it. Should you purchase it, a portion of the proceeds will go to the Ronald McDonald House. If you do not purchase the CD, the Ronald McDonald House is a wonderful charity,that should you ever need it, they really care and they are always there. .
