

Mp3 Jennifer Norman - Leavin' On The Next Thing Smokin'

[DOWNLOAD HERE](#)

a modernized version of good ol' fashion country music. Great country music, with lyrics you can fall in love with. 10 MP3 Songs COUNTRY: Traditional Country, COUNTRY: Country Pop Details: She was born in 1979, has blonde hair, and blue eyes, from Collinsville, IL.-- but at heart, Jennifer Norman is just an old-fashion country girl. In a recent interview, Western Star Records recording artist tells us more about her life. "I learned to sing growing up in church, and listening to the country gospel sounds of Glen Campbell, Bruce Haynes, and Michael James. I have been playing music most of my life. In october 2002, I met up with Robert Metzgar of Capitol Management in Nashville, and he helped me a lot showing me the ropes, and getting me started in the music business. (He was the executive producer on this cd.) I am no longer working with Robert as my producer, but I do owe him many thanks for helping me get started. I married the love of my life in August of 2003, and couldn't be more happy. I work full time in the newspaper business as an advertising account executive, but I love country music, and my hopes and dreams are to be up on the 'big stage' singing for thousands of screaming fans, and I hope you're there. I've been fortunate enough to be able to perform in front of thousands of people in my local area on T.V. news shows, minor league baseball games, and events such as fairs, carnivals and weddings, and clubs. I have taken several trips to Nashville, TN to perform live on various TV shows. "Nashville On Stage" that is being aired several times on Nashville's local PBS channel, and the Nashville showcase.."Keeping Country Alive." In February of 2004, I had the chance to compete in the "Kountry Klub Idol 2004" contest in Taylorville, IL at the Nashville North USA concert club. Although I did not win the title of the "Kountry Klub Idol 2004", I did make it to the semi-final round, and had a great time doing it, and met a lot of wonderful people. I love being on that stage, under all the lights with a great band behind me! I don't try to sound like anyone, although I have been told that I sound a little like Patty Loveless, and also Teri Clark. I

have my own style, and that is the way I like it. My personal favorites in country music are Dolly Parton, Chalee Tennison, Gary Allen, and Reba McEntire. I chose these songs because I love the 'heart' that I can put into them as I sing them. I want a song with a meaning, and hope that I can just a shade of a memory in someone's life. you can also find me on the Western Star Records compilation disc. Roger Blair, the president and CEO of Western Star Records has been very instrumental in getting me some radio play overseas in Switzerland, Belgium, New Zealand, and Australia...and now I have been added to stations in Australia, and Ireland...and several stations here in the USA. Please remember...if you like what you hear, call your local country radio station and tell them about me, and where they can hear me also. check out...jennifernorman westernstarrecords (Thanks "Col.") Thank you for taking a moment to read this, and please listen to the songs...you may like them." P.S. ---TO ALL MY FANS WHO CAME TO THE KOUNTRY KLUB IDOL SHOW ---THANK YOU SO MUCH FOR YOUR SUPPORT, AND FOR VOTING ME THROUGH TO THE SEMI-FINALS. LOVE YA!!
