The Playa Presidency has a vacancy and KENT is the candidate who will take up residency. KENT is a great wordsmith from our Nation's Capitol (Wash., D.C.) and his flow and beats will have Playas salting him and playarettes blowing kisses. 10 MP3 Songs HIP HOP/RAP: Rap, HIP HOP/RAP: Hip Hop Details: Check out my latest CD "the Usual Suspect: D.C's finest." It has tighter production beats and tracks and tighter flows. And you can sample/listen to ALL songs. Check out our website salutrecords where you can get to know more about the artist, his line of clothing, and download NEW songs from my forthcoming album "My First Score". Kent has been rapping for years and his charismatic showmanship skills don't disappoint his audience(s). He has been a student of the hip-hop game since the early days of rap, first being motivated by the great Rakim. He chooses to focus in the "Playa/Hustler" area but his writing is definitely not limited. He has a very unique urban perspective ranging from drugs to drinking to sex to death. He also reinforces his position on the throne with battle statement song (e.g., Fakin' the Funk). Kent has a refreshing old school, traditional style that should give him longevity in the hip-hop game. Check out the song bites/samples!!
