Trance-like musical journey in six movements, richly arranged guitar mastery and very hypnotic grooves. 6 MP3 Songs POP: Psychedelic Pop, NEW AGE: Contemporary Instrumental Details: Ralf Illenberger: The Kiss Produced by Ralf Illenberger and Gibbs Platen This is one long song in six movements - trancelike, classical, magical... Walter Keiser: Drums Zirque Bonner: Bass Fitzhugh Jenkins: Spirit Bass Buedi Siebert: saxes, bass clarinet, marimba, strings Ralf Illenberger returns for his third postNarada effort on indie label In Joy Music Records, and this time hes got another winner.and an unusual concept. THE KISS: Five Waves of Bliss takes the form of a long, instrumental suite, subtle at times, but too involved to ever become mere background music, as with most of Illenbergers guitar jazz pieces. This music kicks in with his unmistakable style in the second movement, Love Flow, but the real aural treat here is symphonique, the third movement of the Kiss, which contains textures so complex that it takes a couple of listening to truly get all of whats going on in the background with its echoplexed acoustic guitars and different parts playing on either side of the stereo image. Beyond the clouds chases that down with some atypical electric guitar solo work that rivals anyone strutting around on a rock concert stage right now.Illenbergers really starting to join the studio-as-instrument crowd with impressive results.
