Details: Cerebral techno-bagpipe world fusion slapping your face!!!! Sonic Impulse is an intense and explosive fusion of various musical influences centered around the highland bagpipes. Hard hitting techno and hip-hop beats meet lush, ethereal soundscapes and driving dance rhythms with world beats to support innovative bagpipe melodies. The project, the brain child of Los Angeles musician Blake Pullen, draws from his varied experience as a piper, composer, singer, and instrumentalist. Although the bagpipes are well known, they are seldom used in conjunction with other instruments and musical styles. Sonic Impulse combines the timbre of this ancient instrument with the new and modern vibes of hip hop, electronica, rock, jazz, techno, and various other world genres, resulting in a unique tapestry of audio textures.
