Blue collar reality Rap. Underground hip hop pimped out. Soulful and conscious, lustful and raunchy. Intelligent lyrics, bangin' beats, liquid flow? The Ghost is a contradiction. See for yourself... 19 MP3 Songs

HIP HOP/RAP: Rap, HIP HOP/RAP: Hip Hop Details: As easy as it is to label music gangsta, underground, pop, or conscious, any artist that fits into one compartment is a joke. The experiences of the hip hop generation are too complex to simplify and trivialize. No man is endlessly uplifting and optimistic. No man is a "gangsta" 24/7. The Ghost is born of these indisputable facts. In 2002 , a collective of 3 MC's from the south side of Chicago came together despite their stylistic differences to create an entity virtually impossible to categorize. Since then, The Ghost has been creeping onto the radars of Chicago fans by opening up for acts such as hip hop legend KRS-1 and performing at venues like Joe's, the Wild Hare, the Dragon Room bringing their music to their rapidly growing fan base. Fans love the multifaceted perspective that effortlessly shifts between moods, styles, and subject matter. The 3 MC's that form the Ghost all bring a unique perspective to any matter they address. Hungry Hostile, The Ghost's debut album invites you into their exciting, mysterious soundscape. Listen carefully and you'll be rewarded. Just as you think you know and understand the album, a metaphor or understanding of a particular song's structure will present itself and make you appreciate it all over again. The Ghost is amongst us. You've been warned.
