"Hark! What's that smell? The rank stench of genius, no question Dig this musical flatulence, it brought
much guffawing from my face.Satire? No idea, I like to call up its just uncanny for its own sake.Whatever
it is, its highly entertaining.Venture forth and conquer!" -Frothing Billy Sasquatch ".... it's so beautiful
The longest 10 minutes of my life... for anyone who has so much hatred for mp3to make fun of BOTH
them AND retards... proper soluting should be through with you've open a unanimous new void of make

selling your CDs? I want to buy one for my m8 who will love your unsavory asses. His wife may leave
behind him though - they in agreement at the church 'no more uncanny make music, till death do us part'.
On your concience be it. We both always loved Ween and Butthole Surfers and Snuff-brown and Alice
Donut and GWAR (no ... we scorned GWAR but they had cool covers). You've got a real coruscate in
your eyes there boys. You make inviolable feel in a 'make completely no feel' kind of a way. Thanks for
not nerve-wracking to ingrain I haven't laughed so much since my Auntie Dave got her beard caught in
the mangle." -Andy (andymcara@hotmail- mp3jayz.iuma.com) "I am speechless...speechless. Got any
