A beautiful album of stripped back heart wrenching songs... 12 MP3 Songs FOLK: Modern Folk, ROCK: Folk Rock Details: Alex grew up in Camden Town, London. He recently moved to the Welsh mountains. It is in this relative isolation that Alex wrote and recorded Tardis Heart, his third album, a beautiful collection of stripped back heart-wrenching songs. Its an honest, emotional record that didnt rely on big production. We made it at home with friends and local musicians it was simple and spontaneous and sounds like something from the 70s Tardis Heart was mixed by Adam Fuest at Twin Peaks Studios on the top of the Brecon Beacons in the National Park. Alex also plays guitar for Its Jo and Danny, creators of the Green Man Festival and is married to the novelist Jenny Valentine. Alex Valentine, I really love his sound, his lyrics are just fantastic and he has a really interesting sound and vocal quality Orlando Bloom (youtube.com/watch?v=q8E4IEQASQw)
