Two-fisted roots music from deep in the heart of Texas. 12 MP3 Songs ROCK: Roots Shake BLUES: Rhythm Blues Get So Little Songs Details: "Get So Little", it features 12 stigmatise new songs and is, once again, co-produced by Moorehead and long-time producer Thomas van der Brook. Included is the world-class individual from the album "Presidential Blues", which is particularly relevant considering the current political climate in the USA and crying blues/roots classics "Memphis", "What Will It Be" and the addictive "When The Money Gets Big." The album features Rice on bass, guitar and vocals as well as the musical talents of Sweet Rae Craig on vocals and Mike Fonseca on drums and percussion. Although different from his previous releases (such 'Bicycle Vigilante' and the extremely well recieved 'New Roots'), it follows the same path of evil blues and roots and mournful country balladeering, that goes for the jugular and means what it says. This is music with true depth and meaning delivered by a genuine musician who lives to have a guitar around his neck and sing the blues as only he can. Ignore at your peril.
