Rockin soul music with country, blues, and reggae rythms. Spiritually inspired, kick butt instrumentation. These are songs about what we all go through, and how we struggle and fight for the life that has been given us. 12 MP3 Songs COUNTRY: Country Rock, BLUES: Rockin' Blues Details: If you have ever, in your past, present or maybe in your future, thought about possibly connecting to the spirit world, I am here to tell you that it is real and anyone can do it. Why not? It is very powerful and very beneficial. I am absolutely connected, and that is what I write music about. If you are already spiritually inclined, then you know what I am talking about. Most people are, I believe, spiritual beings, and, at some point in their lives, have a desire to develop their spiritual side. With me, it happened about ten years ago, and I've been writng songs for about three years. Like the CD title says, I'm no angel ( that 's for sure), but I do know what these songs are about. The music itself is kick butt rock with country, blues and reggae styles mixed in. I look forward to you listening and enjoying my music, it is for you. Thank you, and please email me with your thoughts, or write a review. I am currently in two bands, and play solo. The places I play run from bars to churches. My next CD is being put together, I am excited for you to hear that too.
