Melody-driven hooks, jangling guitars and meditation 10 MP3 Songs ROCK: Roots Rock, POP: Power

Pop Details: "HOSTAGE is another captivating effort by one of the treasures of the Tristate music scene.

The 10 songs are Mr. Arduser's usual masterful mix of pop melodies,dark lyrics and intriguing folk-rock

instrumental textures." Larry Nager - cincinnati enquirer "A current member of three critically applauded

and active combos(The Bears,Graveblankets and psychodots),a talented multi-instrumentalist,busy

session and touring musician and productive songwriter,Chris Arduser would seem to have very little time

on his hands to do much else. But apparently he did find time to fall in love and record his solo debut full

length,HOSTAGE, a strong ten song collection of polished pop and clever songwriting celebrating his

newfound romantic captivity. A powerhouse drummer and accomplished mandolinist,Arduser ably

handles all the instrumentation on the disc,including acoustic and electric guitars,bass,piano and organ

touches and colorful background vocals. As a producer,Arduser crafts a cohesive sound and taut

arrangements that are at times delightful and surprising,but still allow the songs the requisite room to

breathe." Sean Rhiney - cincymusic.com "Arduser's songs get straight to the punch; melody-driven and

loaded with clever lyrics,the Pop power of HOSTAGE should please fans of The Graveblankets and

Arduser's contributions to his other bands.Of special note are Arduser's vocals,which come across as

strong as anything he's put to tape to date." Mike Breen - cincinnati citybeat "Veteran Cincinnati musician

and delightfully twisted songwriter Chris Arduser is out with his first solo project,HOSTAGE. It is a solo

project in the true sense, with Arduser playing all the instruments and doing all the singing. Arduser calls

it "my latest batch of pop nonsense." Indeed,it is full of great pop whimsy,featuring Arduser's delicious

insecurities,rampant paranoia and twisted relationship tales." Rick Bird - cincinnati post
