

# Mp3 Danny Bedrosian - Secret Army

[DOWNLOAD HERE](#)

DANNY BEDROSIAN'S SECRET ARMY IS A MUSICAL JOURNEY THROUGH THE FURTHEST DEPTHS OF NATURAL FUSION. EVERYTHING FINDS ITS WAY INTO BEDROSIAN'S DENSE FUNK: BAROQUE, NEO-SOUL, SOLO PIANO, JAZZ FUSION, ARMENIAN FOLK MUSIC, AVANT GARDE, GOSPEL, ELECTRONICA, PSYC 19 MP3 Songs URBAN/R&B: Funk, JAZZ: Jazz Fusion Details: Parliament Funkadelic keyboardist Danny Bedrosian's sophomore album, SECRET ARMY is a masterwork of soundscapes, grooves, conceptual analyses, and musical marvels. It is the first of the Secret Army series of albums that will be concluded this winter with the next installment: THE sleaziest of the Greaze. Bedrosian tackles many new genres not yet reached on Som'n fierce, such as his classical roots, as well as gospel, Armenian Folk Music, Bebop, Ambient, Fusion, and more, but still has that hard poot fonk for the Hard stompin' Pfunk Fans. And the special guests abound here too: Pfunk's Dewayne "Blackbyrd" Mcknight, and Lige Curry are on most of this masterpiece's tracks (they are founding members of Secret Army too after all) along with former Sweet Motha Child and current Secret Army members Marc Munoz, Seth Ceders, The Soular System's Ral Bryant, Som'n Fierce's Duane Day, and virtually everyone who has been in Sweet Motha Child. This album is a mixture of styles and suggestions to the political, cultural situation in America today. Nineteen tracks strong, and full of amazing textural, compositional material, Secret ARmy will not bore it's listeners. Danny Bedrosian is the regular keyboardist for not just George Clinton qnd Parliament Funkadelic, but also The Soular System, The 420 Funk Mob, The Children of Production, GCIII, and his own band appropriately called THE SECRET ARMY; Danny utilizes his important musical abilities on this new album, having been classically trrained on piano since the age of four. His funk chops serve up some true to the game stank too. And the exploration itself is a deep, beautiful AND harrowing journey through some really uncharted waters.

Danny is proving he is not just able to play legitimately in many genres, but that he is truly creating something never heard in funk or any other genre for that matter. Do not miss the revolutionary music of Danny Bedrosian in his most ambitious, meaningful, musically and lyrically superior masterwork: THE SECRET ARMY Reviewed by Tigran Hovanesian.
