Eclecticboogie... A combination of hip hop, house, reggae, breaks and jazz. 23 MP3 Songs

ELECTRONIC: Breakbeat/Breaks, ELECTRONIC: House Details: Dj Sid -the Apocalypze has been looming here and there dropping beats and remixes on Acidplanetand exposing recent tracks on Myspacewith people from around the world. A long time in the making he releases his first solo production "Liquid Relaxation." Originally named after an old flame he later named the album after one of the tracks on the album to bring focus to the music and not an old lover. Combining elements of hip hop, house, breaks, reggae / latin, and jazz he manipulates sounds into infectious instrumental tracks.

Beginning in 8th grade dee jaying school parties, it eventually led him to making beats and tracks in the basement. He continued that trend all through high school while performing with Black FED. That eventually led him to the study of audio production and a mix show with WOUB AM in the early 90s on Shades of Color. Like it says on his Myspace page "it began with dj trixx and it begins again with Apocalypze..." He is no stranger to music and proves so in every track. He utilizes various forms of music styles and samples to create a unique lounge experience. This is what artists at Acidplanet have said about the Apocalypze. "F@cking amazing!" -dj moxy / FL "great mix of the modern and the dj makes me think of dj spooky..." -A PLEASANT SYMMETRY / NJ "nice blend of hip-hop and electronica..." -TheBreaks Factory / FL "This is damn cool" -ether drift / MN "Brill!" -red40 / London "Good work!!!" -DJ ULTR@ / Music without limits! *Special Note* those who purchase the CD can receive an unreleased mp3 from Dj Sid-the Apocalypze via email.
