Alternative Folk Rock with a World Beat 9 MP3 Songs WORLD: World Beat, NEW AGE: New Age

Details: Critical Mass tells the story of the seekers journey on the spiritual Path, with songs ranging from All Roads and There You Are that speak of resisting the natural instinct to run away, to the desperate, longing cries to merge with the Higher Consciousness, in Take Me and Critical Mass. The last song, Traveller of the Wind, sings of the final sweet, sweet surrender to the Divine! The emotions of pain, ecstasy and passion pulse with an eclectic world beat sound, all combining to take the listener on a spiritual journey that will not be soon forgotten. Incredible vocal purity, this album will take you on a fantastic journey! Peter Humphry-Masterworks Recording, Philadelphia, P.A. Felicia's Story "Inspired" is the clearest way to describe the music of Felicia Rose. With incredible vocal purity Rose delivers stories with outstanding rhythm guitar playing and powerful lyrics. Passionate and lively, this solo artist is opening hearts and lifting spirits everywhere she performs! Felicia is quickly developing an east coast fan base after delivering an intoxicating CD Release show at Philadelphia's Tin Angel in the fall of 2002. Also appearing with a full band at this year's May Fair Festival in Allentown, PA, Rose captivated audiences with her unique blend of alternative rock and angelic mystique. Rhythmically intrigued at a young age, Felicia grew up dancing with the hopes of becoming a professional dancer/choreographer. The music took hold of her and the desire to create and inspire through sound became uncontrollable. Felicia Spent many years living in the Hawaiian Islands where she pursued the dream of becoming a musician. Drawing creativity from the tropical waters, dolphins and whales, a new vocal talent was born. With the dreaminess of the sea and the intensity of its tides she began writing countless poetic songs. Her music soon made its way from the pounding surf to coffee houses, yoga centers, benefits, and music festivals in the Islands and western United States. In 94 Felicia recorded her first CD "Do You Remember?". With CD

in hand she traveled to India, Brazil, Spain, and Greece, cultivating her own world sound. After years of campfires, festivals and exotic travels, Rose moved to the mountains of Northeastern PA, where she dove into a yogic practice that awakened music inside her like never before. In 2002 Felicia released her second CD "Critical Mass" a collection of intensely, passionate songs of longing. Rhythms reflecting the countries she spent time in and little tastes of their cultures and rituals. With more recordings in progress and a seemingly constant flow of songs, Felicia continues performing a vast array of venues, from large stages to intimate spiritual centers. " A large part of my inspiration comes from the incredible response from audiences, the brave individual who opens up and tells me how my music has helped awaken or affect their life in a positive way!"
