

# Mp3 Judy J - Dave's Childrens Songs, Featuring Judy J

[DOWNLOAD HERE](#)

Childrens songs; educational and upbeat. 9 MP3 Songs POP: Beatles-pop, KIDS/FAMILY: General Children's Music Details: I have been in the music business for twenty years, as a session musician, songwriter and have revied two certificates of achievement awards from billboard magazine ,having also worked for the legendary label Delfi records. After my two sons were born it occurred to me why not produce a CD for children that had all the different styles of music that I was influenced by (Beatles, Stones Beach boys et...) a CD that could appeal not only to little children but to the parents themselves, because a lot of parents are baby boomers like myself who grew up in the same era 60's, 70's), so the writing process started, but there was one element missing I needed someone to write the words and this is how just by chance when talking to my son's teacher (Marisela Fernandez) she told me that she would love to get involved in a project such as this one, that she had a lot of Ideas for lyrics, and so that's how it got started . .Marisela Fernandez has been teaching for twenty-two years. She has taught every elementary grade level and adults too. She favors early childhood education and believes that young children are eager to learn with a genuine innocence. She strongly believes in motivating and inspiring her young students while challenging them with new innovative teaching skills. Marisela also believes that music is an important tool for teaching
