Folk/pop/Americana 11 MP3 Songs FOLK: Folk Pop, COUNTRY: Country Folk Details: Stacey Earle, sister of country maverick Steve Earle, and husband Mark Stuart have put together a collection of songs that nourish the soul through the ear. Sweet harmonies and vocals, straightforward lyrics and soulful themes are the tools the songcrafters used to build these sturdy acoustic folk/gospel/country gems. After playing and writing songs for many years and then honing her skills even more as a songwriter on Music Row, Stacey has an extensive catalogue of original tunes. She busted out of the shadow of her older brother and fellow musician Steve with her first solo release and never looked back. Mark, a Nashville native and long-time musician and songwriter himself, joined up with Stacey and they recorded a double live CD intended just for sale at gigs but soon released in stores due to fans pressure. A union was born, both professionally and personally, and this husband/wife team haven't looked back since. Join them in embracing the simple, musical poetry of love and life.
