

Mp3 Truss - The Skeleton Key

Experimental drum and bass 13 MP3 Songs ELECTRONIC: Drum 'n Bass/Jungle, ELECTRONIC: Experimental Details: "The Skeleton Key" is Truss' first full-length effort, containing 13 tracks showcasing his experimental style, which is heavily influenced by Cornwall, UK producer Plug (an alias of Luke Vibert) as well as the dubwise influence of Drum and Bass artists Breakage, Equinox, and Paradox. Tracks like "Sit Down, Gentlemen" reveal a penchant for early Photek-era break manipulation while songs such as the offbeat "Beautiful Champion" feed off the vibrant events of Northwest Arkansas' Esoteric Gen promotion company. The underappreciated talent in Arkansas and the midwest at large fuels a greater desire for Truss to create music that comments on national and international musical trends while maintaining a grounding necessary for independent and original ideas.
