"Did you know that almost 100 million potential customers could be ignoring your sites because they look dreadful on the iPhone? In fact, have you ever viewed your own website on one of the devices?" In fact, have you ever viewed your own website on one of the devices? If not then you might be in for a BIG shock at what it looks like. Dear Website Owner As I'm sure you are aware, the mobile browsing market is taking off at extreme proportions. People love browsing the internet via their smart phones, iPads, tablets and other mobile devices. But only a very small percentage of websites and blogs are actually optimized for mobile browsing and this means you could be losing lots of traffic and money. Morgan Stanley Analyst Katy Huberty said that the number of iPhone users will rise to over 100 million by the end of 2011 You've seen the example above don't you think that most iPhone viewers would simply click away, leaving you with a lost sale or opt in? Don't let this happen to your own site! Introducing The Mobile Niche Theme The Mobile Niche Theme is:

1. Specifically created to work with the iPhone because it's the most popular smart phone on the market.
2. It displays a full screen version of your site and works vertically or

horizontally. 3. You can also double tap the various sections and the theme will zoom in correctly. 4. Looks great in any PC or Mac Browser. Looks Fabulous On Any iPhone Just install the theme on your WordPress sites and its automatically optimized for all iPhones. No need to do anything else. Lets break down the main features of The Mobile Niche Theme: - Designed to work specifically with the iPhone - Full browser compatibility - Built in optin form widget - Choice of built in colours - Upload your own header from the theme settings area - Custom WordPress menu which can be turned off completely if you choose ----- Developer Rights To The Mobile Niche Theme -----
