Lushly orchestrated, this AwRY album is a coalescence of avant-garde rock organic kirsch that will make you both scream ruminant. 10 MP3 Songs ROCK: Modern Rock, ROCK: Progressive Rock Details: New York's AwRY is a refreshing ode to the delight of nighttime. Bandleader Shara Worden has an incredible knack for crafting awe-inspiring songs of intricate rhythm and lusciously dark melody. Aside the spacey guitar ambiance of bandmate Shane Yarbrough, Worden invokes a primal understanding of emotion with her soprano voice and gushing willingness to put it all on the table. Like a darkly organic Portishead, AwRY's music is like staring at your pond reflection on a lonely and moonlit night. Beauty like this doesn't come around very often. - Eric Elbogen, Digital City New York
