Breaks, beats, blitz and drum bass. 15 MP3 Songs ELECTRONIC: Breakbeat/Breaks, ELECTRONIC: Drum 'n Bass/Jungle Details: Starting out in 1999, mr. Zystem joined DJ Elected to create breakbeat and drum bass music "with-a-flavor", in a formation called "Jagga Bite sound system". Their first album -titled "Insert Credit" (2002)- featured various vocals by Dutch hip hop stars and spawned a single with video that was played on major Dutch music networks. After DJ Elected left Jagga Bite sound system in 2003, mr. Zystem was on his own and started a project to create an even more electronic sound combining breakbeats and drum bass principles at different speeds into a new album called "Beats Physics". Now in 2006, it's finally ready! This album contains tracks at speeds varying from 110 to 180 BPM with electronic break styles suitable for clubs and parties but also for use in multimedia and games. The tracks on the album are full versions including intro and outro parts for easy mixing, and targets both home listeners and DJ's.
