Smooth, rich baritone voiced singer performing love songs and ballads made popular in the 60's, 70's and 80's. 10 MP3 Songs EASY LISTENING: Crooners/Vocals, EASY LISTENING: Love Songs Details: After nearly thirty years I've finally realized my dream of recording a cd. Actually I dreamed of recording an album but times have changed and vinyl records are no more. I sing "Old School" love songs and ballads. Perhaps you remember the days when you knew, understood and could actually repeat all the words to the songs you heard in mixed company. This album is made up of the songs that I listened to growing up. To some this may seem like music for Old People, but I say that a good ballad never gets Old. It just moves on from generation to generation. God willing and with your support, I will keep making music that anyone can listen to and sing along as well.
