The best underground Hip Hop album you never heard from hardcore to message.(Lyrics + skills = NAEJ)
12 MP3 Songs HIP HOP/RAP: Hardcore Rap, HIP HOP/RAP: East Coast Details: I learned all of my skills from life the poolhall and the streets.I am not a fan of all the bling-bling rap I beleive true skills and ryme with meaning is what hip hop is all about.The name naej is not just my name it also means nature always exacts justice.Rap to me is more than what you here on the radio.True rap you will never here on the radio thats why I love cdbaby.com.I can't vouch for the other rappers or groups but I can guarantee you that you will here real shit from me.Whether its the streets, politics, or women.I pull no punches I speak my mind and I do not have a radio station or record companies interests at heart.In other words I should say WE wont sell you out to the bullshit thats going on.When I say we I mean my production staff which includes several producers including Got Beats production one of the best underground and hardcore beat makers that few people know of.I also have the help of my two brothers the digital don also chosen two talented and gifted individuals who are true grit and never fold under pressure.The rap game if you want to call it that aint a game at all its all business and trust me with the exception of JZ,Nas,Common,Black thoughts jada kiss,50 and Eminem very few of the others even deserve to be out.Trust me the record companies have stacks of cds collecting dust of great and worhty artists that they can put out but it dont serve there cause. So you the rap lovers of the world are robbed of their talents why do you think 50 cent is on top cause he came from the underground and if it were not for eminem and Docter Dre we would have been robbed of him to.
