ABOUT NEON VENUS 1ST CD-- The Birth of Neon Venus: If you are are fond of bands that deliver a message through fun rhythms and lyrics (such as the Talking Heads), this is the record for you. On stage, their Puerto Rican lead singer, Lissette Napoleoni, exudes an aura of sensuous power and playfulness. She is solidly backed up by Peter Velentine, on guitar and vocals, and Nestor on percussion. The music on the CD ranges from strong, deep rock, to upbeat dance grooves, to sweet melodic psychedelia. With a style thoroughly their own, the band mixes influences from the last four decades; the message of peace and love from the 60's, fun disco beats from the 70's, and new wave/alternative sounds from the 80's, then blends in live drums and Latin percussion loops from the 90's. Another original component of this band is the vocal blend created by the frequent trading of ranges between the female and male voices. With the help of new digital technologies, Neon Venus pulls off a live show as powerful as their record.
