Imagine that Trent Reznor from Nine Inch Nails (NIN) put his music in a big melting pot along with Tiesto and Crystal Method, then mixed in some DJ Icey and topped it all off with Paul Van Dyk. 14 MP3 Songs ELECTRONIC: Trance, ELECTRONIC: Dance Details: My new CD "Introducing OtherBrother Daryl" recently went on sale here at CD Baby and to promote it, I have come up with a pretty good idea. You see, I'm trying to build what most artists call a "fan base", I prefer the term "family". What I would like to offer you is a ground-floor place in the OBD family, and here's how it works... The first 50 people who buy my CD for \$8.88 will be thanked on the Family page of my web site (realityofmusic.com/family.html). Then whenever I release a new CD, that list of people will receive their signed copy in the mail before it is released, ABSOLUTELY FREE. I will even pay for the shipping. My debut album contains 14 tracks. I have 40 more which are nearly ready to go on the following albums... The 7 Deadly Sins (Evil Throbbing OBD Trance) The 7 Heavenly Virtues (The Rhythm that will soon move the clubs) Brother Daryl Other - OBDs Remixes (Including Linkin Park, Korn, Eminem and many others) Into The Abyss (The album that will have you dragging your loved-one to bed!) All four of these CDs will arrive at your door as soon as they are done, printed and mailed, as well as every other album I ever create, forever, as long as I make music... I think you get the point. LOL So buy the CD and never buy another OBD cd as long as you live! Thank you in advance, and welcome to the OBD family! OBD
