"New New Age" - proper music with proper tunes. 11 MP3 Songs NEW AGE: New Age, CLASSICAL: New Age Details: Purple Rhapsody is one man, Terry Robinson. He has been writing music on and off for 25 years and has finally got to the point where his equipment and resources are good enough that he's not ashamed to let his music be heard by the world. For that 25 years the writing has been mostly 'on' but with a gap of a few years when money was tight and mouths needed to be fed. His music is all original and although it loosely fits into categories such as modern classical, new age, and easy listening we're sure you'll agree that it's more than any of those. In fact you could say it's "New New Age"! His influences include (but aren't limited to) Mike Oldfield, Muse, Sugar Ray, Electric Light Orchestra, Rick Wakeman, Keene, Alan Parsons Project, and many more! So... this is Purple Rhapsody's Transient Emotions... Enjoy! ----- STOP PRESS: Transient Emotions is now available for download from the iTunes Music Store.
