Sounds like the Eagles meets Tom Petty meets Alabama and Wilco. 10 MP3 Songs COUNTRY: Western, COUNTRY: Country Rock Details: The melody of the opening country skiffle sing-a-long, "UNO INO" (read: You Know I Know) signals the start of a hook trend that carries you from that songs kazoo-filled ending right on through to the records final track - the tender, "fallen angel" waltz "Which Way". Remedy Motels branded "porch rock" reverts to its acoustic foundation with the bands three founding members returning to their native Utah (from Southern California) to craft this joyful and sometimes poignant set of acoustic alt. country. Beautiful harmonies and well-crafted songs are given plenty of room in these rich, personal songs that would fit well in your Sunday morning musical mix of Gram Parsons, The Jayhawks and The Cash Brothers.
