SPACEWALK is an orchestral experience that's out of this world, making you feel the sensation of lift-off to outer space, walking thru space, encountering a UFO, traveling thru dark matter and landing on Mars. 11 MP3 Songs CLASSICAL: Orchestral, CLASSICAL: Contemporary Details: The music in this CD is an orchestral experience that's out of this world. If you close your eyes while listening to the song: "Spacewalk", you will feel the sensation of lift-off to outer space, putting you inside the spacesuit and observing the heavens above. Next, a spaceship comes in close, hovering above you, in the song: "Space Alien Boogie". This UFO is trying to communicate with humans through the universal language of music, then suddenly disappears. A frightening chill runs through your spine as you drift through that enormous energy known as "Dark Matter". In this composition, utilizing a full orchestra arrangement, you sense the fear of traveling through the unknown. Once you land on our neighboring planet, the eeriness of a desolate landscape is overwhelming in: "Walking on Mars". A song that is best described as melodically mesmerizing. This project is adventurous in its symphonic style of music. Ranging from dramatic scores, to string quartets, to classical overtures. Closing with a beautiful vocal tribute to our American Veterans in: "Bless The USA". Without a doubt, this CD is a musical painting that stimulates the imagination...A harmonic rainbow that pleases the senses for decades to come. Order your copy today!!!
