With mature songs and a fresh voice, Ryan's music is a party. His album and his live show are built on lyrics you can relate to, production that is extremely accessible, and melodies you can't get out of your head. Ryan Culwell grew up in a small town on the plains of the Texas panhandle. Growing up in a hardworking blue-collar household, Ryan was exposed to Rock n Roll by his father at young age. This music became a pillar in the culture of Ryan's life. You could always hear Tom Petty, Jimi Hendrix, CCR, Mellencamp and the likes thumping against the walls of Ryan's bedroom. Ryan then fell in love with the blues of John Lee Hooker. Studying different blues artists taught Ryan to craft a melody that was expressive, memorable, and simple. At some point folk music grabbed Ryan. From Bob Dylan to John Prine to Cat Stevens and even James Taylor, Ryan learned the importance of story-telling and writing a complete song. He naturally brought all he had learned back into the landscape of Rock n Roll. Ryan's songs turned into anthems. By this time Ryan's voice had developed the capabilities of blues singers, the intimacy of a singer/songwriter, and the mass appeal of rock. Due to the sheer geography of Ryan's childhood he also developed a bit of a country twang, which he showcases on his debut album, "Heroes on the Radio." The album is making major headway and forging a path for Ryan in the music industry and in the hearts of listeners. Based out of Amarillo, Texas, Ryan is developing a devout fanbase throughout the panhandle of Texas that is beginning to broaden throughout the rest of the state and the midwest. "Heroes on the Radio" released June 16th 2006 single "Gimme Your Hand" "Heroes on the Radio", Ryan's debut album. proudly reflects the music that inspired Ryan as a musician.
