The music of nature, rain, hail, wind, lightning, and thunder with a dab of ethereal music and effects 19 MP3 Songs EASY LISTENING: Mood Music, ELECTRONIC: Soundscapes Details: Its fun listening to Natures Fury from the Comfort of your living room or work space. Sometimes its dangerous and Lives are in the balance. Wondering when that Lightning Bolt might take Aim at You. Its like gambling on a slot machine as to whether or not you may be struck by Lightning,Unless you live in Florida and are on the Golf Coarse,and the Odds are, your going to be Toast sooner or later. I've taken the best Storm Recordings I've collected for 2006 from High in the Sierra Mountains near Yosemite,Ca. Track 7 is a Nasty Rain,Hail,and Thunder Storm,that lasts 5 min 53 sec. Track 18 is a long Rain,Thunder,Wind,and light music and some odd sound effects like Train in the Rain,or the Seashore,or a Helicopter in the rain. There are a lot of nice surprize sounds to add to the minds adventure in listening. Its a fun Cd for the ear. If it wasn't for my added sounds to Natures finest it might be just another Relaxation Tape,Yuk !and oh so Boring... I hope you Enjoy the whole 75 minutes of Thundering DownPour... William Verkler
