Southern jazzy/rock with an upbeat feel. 12 MP3 Songs ROCK: Instrumental Rock, JAZZ: Jazz Fusion
Details: "Snapper" is the second offering from the band Caligator and it's a lot more of a good thing: awesome guitar playing in a nice fusion of rock, jazz, and Corky Newman's compositional originality. His long-time friend, bassist Bill McCloskey (returning from the first CD) joins Corky Newman who's providing all the guitar lead vocals . Added to Caligator's line-up now are world-class drummer Rich Zeller keyboard wizard Lenny La Rue. "Snapper" is one hell of a "guitar CD" but it brings so much more to the table: fantastic guitar tones feel, professional recording, excellent vocals and excellent playing all around. This Roseville, CA. band is on the verge of breaking on the national level and "Snapper" just might be the ticket they need. Take a quick listen to the tracks sampled here. You can hear Corky's influences from many of the world's great guitarists in choices of tone and execution. This is excellent music for driving in the car or enjoying at home: innovative upbeat grooves and fresh new sounds. Enjoy. It's all the hot new sound of Caligator! NEWS: Mark Munoz our long time Harmonica/keyboardist will join us for our live shows. This will bring the live show up to an even higher level of entertainment.
