Ranging from electronic pop to house with an edge. 5 MP3 Songs POP: Party Pop, ELECTRONIC: Techno Details: Having re-released the first CD, the self-titled "Final Approach", this effort showcases Meeta Gajjar on vocals and Walt Koziar on keys as well as bass and handling the songwriting and production. The lead track features the original mix of "Love Crazy" as well as "Can't Stop Thinking About You". "Hip-House", a club DJ favorite, is also one of the tracks. Long time guitar player Harry Atkinson lends a hand on "Crank it Out", which precludes his return in a more extensive way on the recently released CD, "Second Opinion", also available on CD BABY.com. Additional guitars from Steve Goldfein and some background vocal help from Sharron Rodgers on "No More Chances" complete the musicianship. This first release from Final Approach also had some cuts available on vinyl for a limited time. After doing extensive live work during this period, getting back to a controlled environment was a welcome change, some of the band recalled recently.
