Pieces played only with African percussion instruments, to which the sounds of the forest were added, recorded by the author himself. 10 MP3 Songs WORLD: Samba, LATIN: General Details: The MAGICWORLDSTUDIOS is happy to present a new Cd of the series CAFE' DO BRASIL,named EFEITOS DA NATUREZA.The songs were composed by Francesco D'Angelo,who as a person aim of keeping musical traditions of ancient african people alive. If you wish to know something more about Francesco please read the review of the previous CDs. This CD includes pieces played only with African percussion instruments,to which the sounds of forest were added,recorded by the author himself. The ancient populations lived in the forest,and this is the reason why Francesco included the nature effect in his songs, in order to have a deeper and better contact with ancient traditions and people. Progress and civilization are erasing all of this, more and more people are leaving their native place to go in the cities, attracted by the modernity,just a few tribes are left in far away place of the earth:Francesco wants that those population do not disappear and that people understand that they are very important,as an example for all of us. As usual,Francesco is at the disposal of everyone who has proposals or who wish to start a collaboration or who just wants to know some more information about him and his record company MAGICWORLDSTUDIOS. Francesco wishes to thank all his fans who represent the spur to him for keeping going on that road.
