A crazy mixture of Hip-Hop, Soul, and Spoken Word, but please don't call it NEOSOUL. 13 MP3 Songs
SPOKEN WORD: Storytelling, SPOKEN WORD: With Music Show all album songs: Timeless Songs
Details: A friend told me that once you put yourself on wax, you are Timeless. That was the inspiration for this album. In being timeless though, I wanted to do it in a way that strikes the mind. With that, the product in front of you is four long years of trips to the studio, finding tracks, writing, performing, and praying. Every track, every word on this album is something I can relate to, something I have learned about, and I wanted to be sure that in my learning, I was able to relate to you the listener, and hopefully I have done that. There is no elaborate story here, it is simply a love for music and a talent for Spoken Word that God laid on my heart about the time he said "Let There Be Light". You will think, learn, laugh and forget about your limitations when you hear this product. This album is Hip-Hop, it's R&B, it's soul-- it's the soul of you and I. This album is, simply put. Timeless
