Piano driven contemporary gospel hybrid blending pop, rock and jazz. 12 MP3 Songs POP: Piano, JAZZ: Traditional Jazz Combo Details: Drink hot chocolate by the fire. Decorate the tree. Let Christmas sounds surround you. That was the intent of the project. Produced by John Ferraro, this project brings an honest, acoustic interpretation to time held Christmas standards. It is fresh and innovative. It captures both Noelles unique vocal style and well as her piano, bringing new life to songs such as Silent Night and Joy to the World. It also included two new songs Holy, Holy and Celebrate Christmas that stand alone with their lyrics and performance. It is often difficult to distinguish that for most of the CD you are listening to a three piece acoustic band. The musicianship and intensity of the performances hail back to the days of analog, and they are real. This project was as much about honesty at every level as it was about developing a new sound to old songs. And so with that in mind the bells and whistles were avoided in favor of a real piano sound, stripped vocals, crisp drums and bass. It is not uncommon for Noelle to hear people tell her they play this all year long. Theres just something about how it touches you, how it makes you feel Christmas, and how it speaks to you heart. People who are interested in Bruce Hornsby David Benoit Norah Jones should consider this download.
