

Mp3 Siamese Left - Blown Away Fools

[DOWNLOAD HERE](#)

Produced by Rolling Stones keyboardist Chuck Leavell and veteran southern rock producer Johnny Sandlin(among others), the extremely diverse, 19-track 'Blown Away Fools' showcases Siamese Left's knack for blending rock, pop and country. 19 MP3 Songs POP: Folkly Pop, ROCK: Americana Details: 'Blown Away Fools' is like a 'tour of studios. No less than 5 different studios were used to create the songs which range from lo-fi to downright slick. Further adding to the diverse sound is the fact that some cuts were recorded completely live, while others were built one track at a time. The end result is an album unlike the 'samey' records that continue to flood the market. Whether it's short pop with harmonies, ominous rock with screaming or country ballads with loneliness, there is something on 'Blown Away Fools' for almost everyone.
