Kids/Family ... A totally uplifting and delightful CD of children's music with lyrics that are fun and memorable. 14 MP3 Songs KIDS/FAMILY: General Children's Music, KIDS/FAMILY: Children's Pop
Details: Children throughout the world have asked, "Why does the Moon come out during the day?" The answer ... It's a "Children's Moon". ... a time when children all over the world can share the wonder and magic of imagination and dreams during the day. Be a cowboy, sail the seven seas, win the big race...follow your imagination during a Children's Moon. On the CD "Children's Moon", The Warren Cody Band has captured a child's sense of wonder in joyful and imaginative songs written to inspire and educate. Produced to please the discerning ears of parents while capturing and holding the attention of your child, you and your children will be singing along on your first listen and will carry the melodies and ideas with you for many years to come. "Children's Moon" and the Warren Cody Band are the creations of Richard Wieser with the assistance of Tom Riopelle and John Riopelle. Richard's vision was to write simple, repeatable and educational themes and convey them through music that entertains and inspires the child in all of us. Richard, a professional musician who has been recording and performing for many years, is best known for his work with Gold Mountain/A&M Recording Artist's, Fairchild. Tom Riopelle, who worked with Richard to arrange and produce "Children's Moon", also performed and recorded with Fairchild and other artists as a studio musician. Tom will always be remembered for his legendary work with Casablanca Recording Artists, Lipps Inc and his guitar playing on the multi-platinum hit recording, "Funkytown". Producer and Engineer, John Riopelle, has a long history in the music business working in studios in Chicago, Minneapolis and New York. His contribution to the arrangements and production helped create the unique sounds found on "Children's Moon". One listen to Children's Moon, and you will find yourself in a world of wonder and possibility. With the superior production elements of this CD, you

will enjoy the fact that your child wants to play it over and over again. Now, when your child asks, "Why does the Moon come out during the day?" ... you will know the answer.
