Country Folk 10 MP3 Songs COUNTRY: Country Folk Details: Bio Wayne Ferguson Wayne was born in a small farming community in eastern Ontario. From as far back as he can remember he has been interested in music. The opportunity to advance in this field was nil at the time, other than listening to some of the older people playing in their houses. There were also other factors involved which made him hesitant in pursuing a career in music, which are brought to light in a book that he has just written; "Hidden Tears," which will be published in early 2006. Wayne served in the Canadian Armed Forces for twenty seven years, which moved him to many different locations including a tour in Germany, and peace keeping in the middle east. For the past three years Wayne has been doing live shows in Ontario, Alberta and in Vancouver, B.C. Writing his own songs is his passion which is displayed in his emotions and voice when performing.
