Traditional Country/Country Gospel in an easy listening style. 10 MP3 Songs COUNTRY: Country Folk, COUNTRY: Traditional Country Details: Wayne Longtin Sr. isn't a beginner in the music business. In 2004 he celebrated 40 years as an entertainer and musician. For 30 years he traveled, playing Bass guitar with bar bands all over the U.S. Turning 62 years old in March he had retired from music at one point. It was short-lived. This Album contains songs which are a first effort at songwriting and recording. Some of the songs reflect on his 40 years of experience in the music business. The title song deals with getting tired of the road and just going! This song is based on a "Road" experience where the guitar player walked off the job in the middle of the night. He had enough! How many times have we all wanted to do that from some job we'd gotten tired of? "I just want to go home!" Wayne is back! Sales for this album have been amazing before it was even finished. This summer will find this "Old Pro" on the road again!
