Parallel Computational Fluid Dynamics 2007

DOWNLOAD HERE

At the 19th Annual Conference on Parallel Computational Fluid Dynamics held in Antalya, Turkey, in May 2007, the most recent developments and implementations of large-scale and grid computing were presented. This book, comprised of the invited and selected papers of this conference, details those advances, which are of particular interest to CFD and CFD-related communities. It also offers the results related to applications of various scientific and engineering problems involving flows and flow-related topics. Intended for CFD researchers and graduate students, this book is a state-of-the-art presentation of the relevant methodology and implementation techniques of large-scale computing. EAN/ISBN : 9783540927440 Publisher(s): Springer, Berlin Format: ePub/PDF Author(s): Tuncer, Ismail H. - Glcat, Igen - Emerson, David R. - Matsuno, Kenichi
