

## Zip 2 Profit Software

[DOWNLOAD HERE](#)

Profit from other Peoples Sales! It can get any easier than this! Even when your customer buy from other marketers he normally will have to unzip the package he's bought. As he got a copy of Zip2profit from his preferred marketer, You, he used that easy to use and very handy piece of software to unzip the purchase. Even though he purchased from someone else, you will get your brand in front of his eyes. You will have 2 direct offers Jumping at him from the software itself and depending on your choice may he even be exposed to a web site of your choice with one more offers or why not even a free gift (pulling them back to you again!). Sell it, give it away, bundle it ... It's up to you how you get a copy on every customers computer. My tip is to stop sending your customers away from your thank you/download pages by telling them to go and get a copy of Winzip (telling them to leave your site without earning money from

it is just plain bad business) and give them a copy of Zip2profit instead! You can earn money from a number of different built in revenue streams (and remember, people have a lot of zip files and they download new ones almost every day, allowing you to profit from each and every unzip they do!). Zip2profit was created by me and I have all the source code to it. So I can assure you there's no adware, malware or similar hidden inside it. Many software developers use third party ad networks when providing the users with ad capabilities in their software. Zip2profit was created from the bottom up to not follow that path! You can distribute your copies safely without worrying that your customers will have security programs popping up "security risk" windows all over the place. The same goes for firewalls. Zip2profit only opens up the default browser (normally Internet Explorer or Firefox) and loads the page or pages you have decided. So a firewall will not be a problem. Unless you try to send people to a site that is blocked by itself and in this case the problem is with the site and not Zip2profit. Zip2Profit was created to be easy to use. This will save you time and minimize time spent on customer support. There's only 1 file to give away. No setup needed. No changes are done on your customers computer. And Zip2profit only does one thing, It unpacks zip files! This makes it as close to newbie safe a software can come!
